DETAILED ACTION

This is a Restriction/Election of Species for application number 10/741,820
Apparatus and Method for Supporting an Electronic Display filed on 12/19/03. Claims
1-30 are subject to election/restriction.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-21, drawn to a support for an electronic device, classified in class 248, subclass 226.1.
- II. Claims 22-30, drawn to a method of displaying an electronic visual display classified in class 345 subclass 905.

Inventions I and II are related as Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the support for an electronic device could be used with something non-electronic such as a painting or a drawing.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
